The trendence Graduate Barometer 2010 - Business Edition

Prepared for Universitatea Babeş-Bolyai din Cluj-Napoca

Welcome to the trendence Graduate Barometer 2010.

First of all we would like to thank you for your participation in the trendence Graduate Barometer 2010. Through cooperation with institutions like yours, this year has been our most successful yet, with 220 000 students taking part in the survey: about 25 000 participants more than we had in the previous survey.

Over the years, trendence has become Europe's leading research institute conducting online student surveys. The results of these surveys are used by employers and universities to learn more about students, making our data an important bridge between higher education and the labour market. We look forward to many more years of cooperation with your institution.

We hope you find this report interesting and useful, and welcome any comments or requests you may have.

Yours sincerely

Ulrike Heyne

About the Survey

The European Student Barometer has grown to be the largest survey on career, education and employer topics in Europe. More than 850 institutions in 24 countries took part and about 220 000 students answered the survey.

The survey was conducted in the following countries: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, the Netherlands, Norway, Poland, Portugal, Romania, Russia, Slovakia, Spain, Sweden, Switzerland, the United Kingdom and in two new countries: Bulgaria and Turkey.

The field phase of the survey took place from 01.09.2009 – 11.01.2010. The students were asked about their preferences and expectations in their future career, their satisfaction with their university, and the attractiveness of future employers.

The main target group for the survey was business/economics and engineering/IT/natural science students; however, we are of course interested in hearing the opinions of all students. Therefore we have three editions of the trendence Graduate Barometer Partner Report: business, engineering and total (including students of all fields of study).

The survey was conducted online and the students were invited by the universities by email, newsletter or web page banner.

Your report is divided into four chapters: Education and university evaluation, Career, Employer attractiveness and The students.

Opinions – student fees

trendence is Europe's leading research institute specialising in employer branding, personnel marketing and recruiting. Every year, more than 300 000 school-leavers, students and young professionals from all over the world take part in our studies on their career ambitions and employers of choice. These studies' results are an invaluable support to organisations' HR departments: by providing authoritative, representative information on potential employees, they inform crucial decisions on recruitment and marketing strategies. Furthermore, our results assist schools and higher education institutions in appraising their performance and developing a coherently strategic approach. The 'Top 100' rankings of the most desirable employers, compiled from our studies, are a particular focus of interest, acting as guides and benchmarks for the media, employers and the employees of the future alike.

Our commitment to the quality of trendence research results is demonstrated by the fact that key members of our team hold ESOMAR membership and by our absolute adherence to ISO 20252 and other recognised market research standards. trendence also produces various print and online publications to support school-leavers and students in their career decision-making process.

trendence is part of Group GTI, the world's largest careers publisher, which has offices in Europe and Asia. As the market leader in a dynamic environment, trendence regularly sees annual growth in double figures. Our clients are primarily organisations with international or global operations.
